

How to release your print job on a print release station

- 1 At the prompt, **enter release key** (the password for your print job which you set when you sent the job to print); then press **“OK”**

- 3 Select the job to be printed and select **“Print.”** Swipe your 49er Card on the keyboard. The job will print. When finished, select **“End Session.”**

- 2 At the next screen press **“OK”**;
